PUF ROOF & WALL PANEL

Product Features

- » High load bearing capacity at low weight.
- » Excellent and durable thermal insulation.
- » Sound Proof & Fire Resistance (PI)
- » Pre engineered product for precise dimensions and accuracy.
- » Quick on-site installation. High Structural durability and longevity.

Product Specification

PUF Thickness (MM)	Standard Width (M)	Standard Length (M)	Standard PUF Density	Standard Colours
20 upto 150	1.06 & 1.16	As per requirements	40 KG/M3	Off-White, Brick Red, Royal Blue, Sky Blue, Green, Grey

POLYCARBONATE SHEET

Product Features

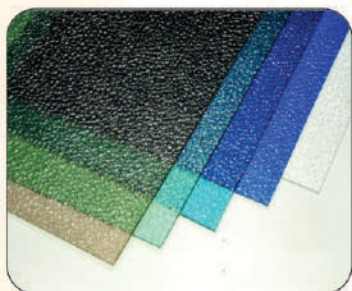

- » High Impact Strength.
- » Lightweight.
- » Heat Resistance.
- » Easy to Fabricate & Machine
- » Non - Breakable

Category

- » Multiwall
- » Honeycomb
- » Plain Solid
- » Diamond
- » Embossed
- » Raindrop
- » Maze, River, Box
- » Profile - AC, GC, TATA, JSW

Product Specification

PUF Thickness (MM)	Standard Width (M)	Standard Length (M)	Standard PUF Density	Standard Colours
1 upto 20	4, 5, 7	39, 100	1.20-1.22 g/cm3	Clear, Greenish blue, Bronze, Blue, Pencil Grey

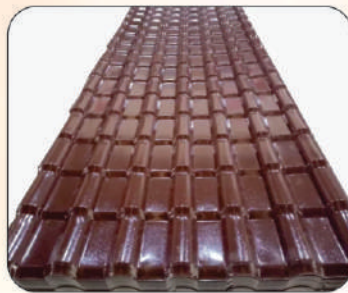

UPVC SHEET

Product Features

- » Anti-Corrosion
- » Sound absorption and heat insulation
- » Long life and Durability
- » Low Maintenance
- » Environment Friendly
- » Cost-Effective
- » Waterproof roofing sheets

Product Specification

Standard Thickness (MM)	Standard Width (FT)	Standard Length (FT)	Standard Density	Standard Colours
2.3, 2.5	3.5	4, 8, 10, 12, 16.5	1.47 gm/cc	Brick Red, Grey, Chocolate Brown

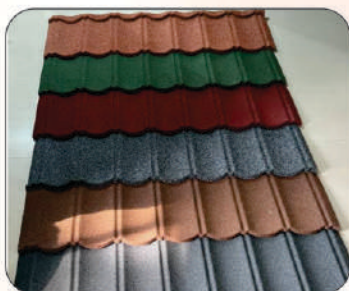

STONE COATED METAL SHEET

Product Features

- » Stone-coated steel is more durable
- » Metal roofing with the aesthetic appeal of traditional roofing materials
- » No maintenance
- » Environment Friendly
- » Attractive Appearance

Product Specification

Standard Thickness (MM)	Standard Density	Standard Colours
1.5	8050 kg/m3	Forest Green, Black-Red, Garnet, Charcoal, Coffee Brown, Ocean Blue

METAL ROOFING SHEET

Product Features

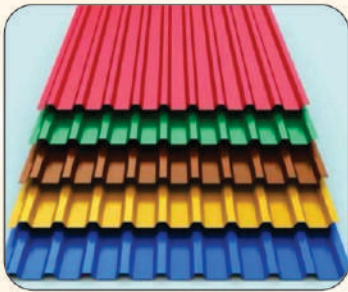

- » Cost efficient.
- » Surface-treated steels are all resistant to pressure, corrosion and wear and tear.
- » Fire Retardant.

Category

- » Tata Profile
- » Kerala Tile Profile
- » Bond tile Profile
- » Long Span Corrugate Tile Profile
- » Linear Profile

Product Specification

Standard Thickness (MM)	Standard Width (M)	Standard Length (M)	Standard Density	Standard Colours
0.30 upto 0.60	1.06	As per requirements	8050 kg/m ³	Off- White, Royal Blue, Brick Red, Grey

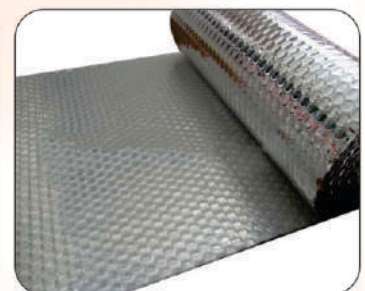

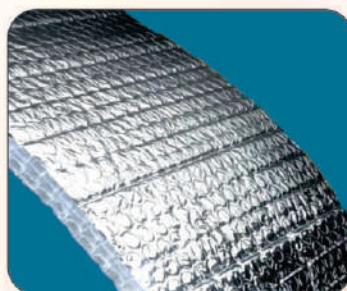

XLPE & BUBBLE INSULATION SHEET

Product Features

- » Outstanding weather stability.
- » Easy fabrication.
- » High resistance to wear and tear.
- » VOC-free at 80°C (Heat resistant at 110°C).
- » Excellent moisture and flame resistance.
- » Resistance to crush and heat deformation.

Product Specification

	Standard Thickness (MM)	Standard Width (M)	Standard Length (M)	Standard Density	Standard Materials
XLPE	6 upto 20	1.22	20 upto 40	30Kg/M ²	Aluminium
BUBBLES	4 upto 25	1.25	20 upto 40	8150 Nos/Sq mt.	Aluminium

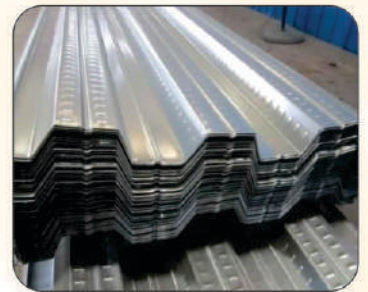

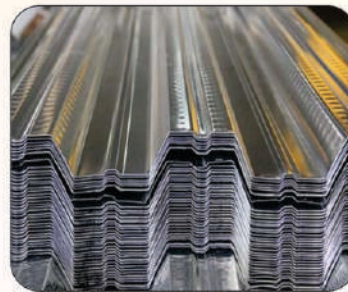

DECKING SHEET

Product Features

- » Reduces the construction cost significantly.
- » Reduces the slab thickness and deadweight of the building and reduces the quantity of steel required during construction.
- » Deck sheets are strong and durable.
- » Resilience towards moisture built-up and weather damage.
- » Decking sheets expedite the pace of construction

Product Specification

Standard Thickness (MM)	Standard Width (MM)	Standard Length (M)	Standard Depth (MM)
0.80 upto 2	931	As per requirements	50
0.80 upto 2	915	As per requirements	75

TURBO VENTILATOR & POLYCARBONATE BASE

Product Features

- » Permanently lubricated and Sealed ZZ bearings.
- » No maintenance - Rust free.
- » Rain proof rugged spider design.
- » Highly durable
- » Unbreakable, fire retardant, UV resistant
- » Easy to handle and install

Product Specification

	Ventilator Diameter		Top Cover		Bottom Plate for Blade		Blade	
Turbo Ventilator Fan	Outer Diameter	22, 24 Inch	Thickness	0.5 mm	Thickness	0.5 mm	Length	430 mm
Polycarbonate Base	Diameter	22, 24 Inch	Thickness	2 mm	Length	1.7 M	Profile	AC, TATA, GI, GC, JSW
Aluminium Base	Diameter	22, 24 Inch	Thickness	0.5 mm	Length	1.22 M	Profile	Plain

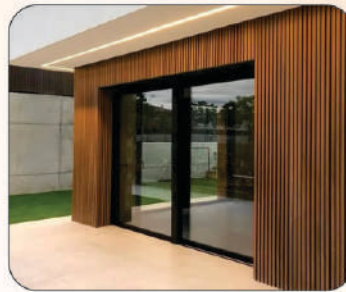

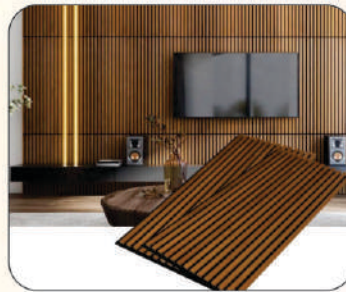

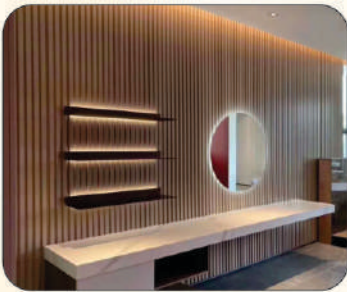

INTERIOR & EXTERIOR WALL PANELS

Product Features

- » Customizable solution for modern designs of wall
- » Easy installation
- » Low Maintenance
- » 100 % water and fire resistant
- » Excellent Durability
- » Classic wood grain looks

Product Specification

Standard Thickness (MM)	Standard Width (FT)	Standard Length (FT)	Standard Colours	Materials
2 upto 10	0.5,1,4	8,10,12	Multi Colour	PVC, UPVC, WPC, HPL

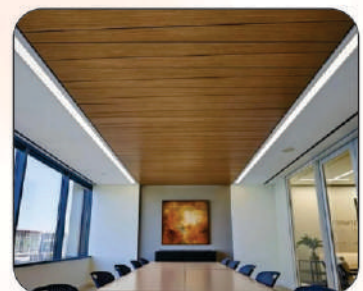

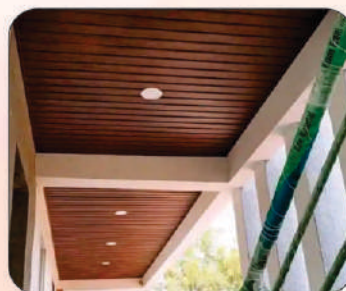

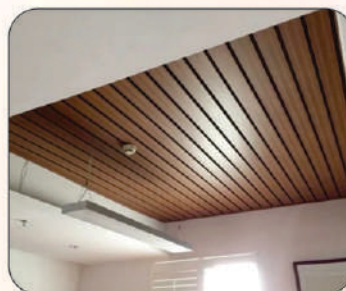

CEILING PANELS

Product Features

- » Modern decorative designs for ceilings
- » Hide imperfections of the ceiling and improve the thermo-acoustic comfort of the rooms.
- » Easy installation
- » Low Maintenance
- » 100 % water and fire resistant
- » Excellent Durability
- » Classic wood grain looks

Product Specification

Standard Thickness (MM)	Standard Width (FT)	Standard Length (FT)	Standard Colours	Materials
6 to 10	1	8,10,12	Multi Colour	PVC, WPC

ROOFING SCREWS

Product Features

- » Designed to withstand extensive corrosion testing protocols and environments
- » Wide material compatibility
- » High Strength-to-Weight Ratio

Product Specification

Thickness (MM)	Length (MM)	COATING
10, 12	20 to 150	Xylan, Grey, Ruspert, Zinc

MS & GI PIPE

Product Features

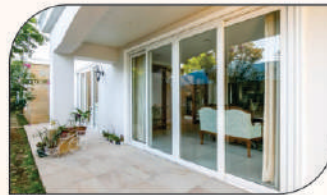

- » Highly tensile
- » Corrosion resistance, high temperature resistance, and superior impact resistance
- » Cost-effective and Recyclable
